# The Independent Monitor: An innovative form of presentation

Whether in presentations, video conferences or on websites: sharing visual content with colleagues, customers and partners is key to the world of work today.

The Independent Monitor by BACHMANN provides a whole new level of flexibility when it comes to such teamwork: the battery pack means the monitor can be used wherever it is needed, irrespective of rigid infrastructure such as sockets, network connections or cabled devices.

It is easy to operate and, thanks to a battery life of 6 to 8 hours, can be used to present information wirelessly for an entire working day.

The status display built into the battery pack lets you keep an eye on how long the Independent Monitor has left to run at all times. The batteries can be fully charged overnight, thus guaranteeing reliable, efficient operation during the day.

A high-resolution display and integrated loudspeakers present audio and video content at a high quality.

#### **Maximum functionality:**

Plug-and-play solution can be operated flexibly, easily and reliably by various users

#### **Maximum mobility:**

Can be placed anywhere in the room thanks to its battery pack – no more annoying cables

#### **Long battery life:**

6–8 hours of wireless presentations and/or digital signage

#### **Compatibility:**

Can be equipped with various technical components such as Wi-Fi presentation systems, digital signage players or mini PCs

#### **Electronic height adjustment:**

At the perfect height, whether sitting or standing

## Meeting Solution

The ideal solution for companies, hotels or public institutions: the battery-operated monitor with a built-in Wi-Fi presentation system by BACHMANN enables you to show content in a flexible way wherever meetings, events or talks are held. Mobile and with no need for cables, the monitor is just as suitable for use in an open-plan office as in “huddle rooms”, conference spaces or canteens.

- ✓ The perfect tool for small conferences or meetings and presentations given as part of larger events
- ✓ Audio and video signals transmitted wirelessly
- ✓ Plug-and-play function for playing back and sharing presentation content (“presentations at the touch of a button”)
- ✓ Optional storage shelf for keyboard or Barco ClickShare dongles

## Digital Signage Solution

Do you want to play back media content at various locations via a central control system? Just use the Independent Monitor as a digital signage solution! By installing the monitor directly at the point of sale, you can share information with customers, interested parties or other partners in a smart and modern way. The monitor can also be mounted vertically for such applications.

- ✓ Battery-operated monitor with digital signage player: the perfect tool for advertising campaigns and information sharing
- ✓ Plug-and-play function (insert SD card – content plays back automatically on a loop)
- ✓ Content played via an external server (“remote control function”)

## Individual configuration

Do you want to configure the Independent Monitor to meet your requirements? The basic version of the BACHMANN solution is provided without a digital signage player or Wi-Fi presentation system as standard, thus giving you countless options to create your presentations just as you like.

Contact us!

- ✓ Ideal system configuration for different applications
- ✓ Presentation and provision of information according to your wishes
- ✓ Advice for your application fields
- ✓ Customized solution available on request (integrate your WIFI presentation system, Mini PC or Digital Signage Player)

# Technical details

---

**More Details:**

# Independent Systems by BACHMANN

## Flexibility for working together now and in the future

Buildings are getting smarter, and the call for flexible, comfortable infrastructures in buildings is getting louder and louder. Therefore, the future infrastructure for energy supply must be taken into account already during building planning. At the same time, the way in which teams work together has been transformed over the past few years. New ways of working have not only resulted in clean desk and desk-sharing concepts, but also require more flexibly designed space for collaboration. Therefore, the modern working environment should not only be energy efficient,

but also flexibly adaptable in the case of restructuring and relocations. Last, but by no means least, the modern work environment must stand out from the crowd by being easy to use and boasting an aesthetically pleasing design that fits in with the innovative interiors found in contemporary office spaces.

This is where Independent Systems by BACHMANN come in. Consisting of an Independent Workplace and Monitor, these solutions have a modern design and offer exactly the adaptability and modularity that are needed to make teamwork even more flexible and efficient.
